

# Full-System Solutions for Wheeled Excavators

Our innovative approach delivers best-in-class engineering solutions to help OEMs maximize their offerings. For wheeled excavators, we provide a complete drivetrain featuring front and rear axles, driveshaft, and transmission for both conventional and electrified vehicles. Spicer™ drivetrain system integrates outboard wet disc brakes to ensure jerk-free braking and smoother operation. This contributes to the already excellent comfort enjoyed by the driver, who also benefits from precise maneuvering capabilities and ease of use. Built to accept a broad range of power units, customers are free to choose the motor that works best.

## Spicer™ Planetary Steering Axle

- Unique brake design reduces parasitic power loss
- Precise maneuvering capabilities and ease of use

## Spicer™ Planetary Non-Steering Axle

- Multiple configurations available
- Outboard wet disc brakes for smoother operation

## Spicer™ Driveshafts

- Ideal for the rigorous demands of most mobile off-highway applications
- Designed for minimal maintenance, longer life, and reduced operating costs

## Graziano™ Shifting Solutions

- High-efficiency powershifts
- Enhanced shifting performance and driver comfort

## Spicer™ Powershift Transmission

- Traction continuity and smooth operations in all conditions
- Enables the engine to run at its most efficient speed for better fuel economy

## Spicer™ Two-Speed Gearbox

- Extremely compact and versatile
- Enhances vehicle mobility and precise shifting

## Spicer™ eSG001

- High-efficiency single-speed
- Ideal for high-performance motors
- Compact and light

## Spicer™ eSG101

- High-efficiency single-speed
- Ideal for high-performance motors
- Enhances vehicle mobility

## Spicer™ eSG102

- High-efficiency, two speed
- Ideal for high-performance motors
- Enhances vehicle mobility
